

Loddiswell Parish Pollinator Plan 2024

This is a starting point for ideas – if you have any further ideas, please feel free to write in the boxes below or speak to a WAL committee member!

	Objective	Actions	Targets	Additional details	Resources required	Funding opportunities
1	Increase the biodiversity value of habitats within the parish including community green spaces, green infrastructure and any other sites with	Identify sites within the parish that offer the potential for improvement and are available for WAL intervention	TBC	Refer to list of potential sites (see below)		
		Survey habitats to identify baseline species lists		Allocate WAL members and volunteers to survey habitats	Survey equipment	
		Mapping of key habitats of value to pollinators within the parish		Create maps using QGIS identifying sites, restoration techniques and potential timeframes		

	potential opportunities for increasing biodiversity	Carry out practical aspects of habitat restoration works		<ul style="list-style-type: none"> • Tree planting • Seed sowing • Plug planting • Scything 	Tools and equipment required. Trees and seeds required.	
		Install bee hotel towers in green spaces around the village			Tools and materials required.	
2	Increase awareness of pollinators and wider	Encourage further community involvement with WAL				

	biodiversity within the local community	Carry out regular walks, talks and training workshops		Use WAL members as well as external experts	Equipment required: bat detectors, hand lenses, ID guides	
3	Increase the number of young people who understand the value of their local pollinators	Continue engagement with Loddiswell Primary School				
		Identify areas within school grounds for enhancement (wildflower meadows, tree planting)				

4	Make links with local landowners with responsibility for species-rich grassland sites	Create opportunities for seed harvesting from species-rich grassland to enhance community assets		Discuss potential opportunities with Lynne Kenderdine from DWT	Potential funding for seed or brush harvesting time
